

**GEARS2009  
TECHNICAL AWARENESS  
SEMINAR  
26 November 2009  
Agusta Westland, Yeovil**

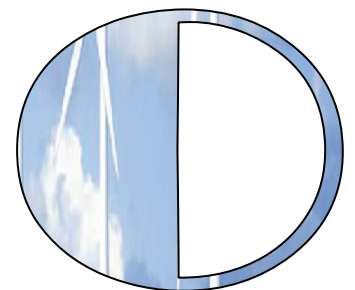

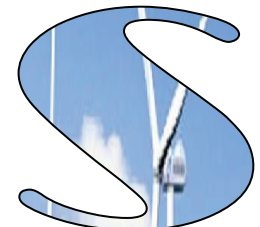

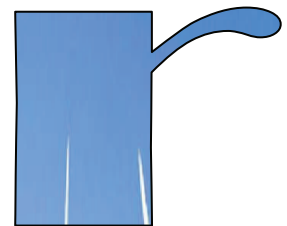

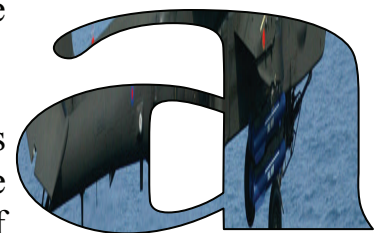

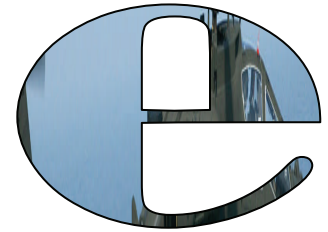

This successful Association event is now in its fifth year and will appeal to designers, manufacturing engineers, academics, senior management and all those with a keen interest in the world of mechanical power transmissions.

The event will see a number of speakers presenting on topics such as renewable energy, aerospace, materials, design, design software and manufacturing.

With Romax currently celebrating its 20<sup>th</sup> anniversary, Romax's Chief Executive and founder, Dr Peter Poon, will address the conference drawing on his significant experience in all aspects of rotating machinery across a broad range of industries.

The afternoon will also see a Historical presentation and a facilities tour of Agusta Westland.
